

Tammy has been involved in the customer services since she was a child growing up watching and learning from her grandmother who was in hotel management. It was only natural for her career to begin in retail management. The early years in retail gave her priceless skills she values to this day.

When by chance Tammy found a career in dentistry, she realized her passion! She went from sterilization technician to practice administrator and has work with both general dentistry and specialty teams. In her 34 years in the dental industry, she has had extensive training in management, accounting, computer operations, dental software, and leadership skills.

Tammy is inspiring the dental teams to realize their potential by building relationship-based practices. That can communicate in a caring and authentic way with each other and patients to deliver quality dentistry and excellent customer service.

Tammy is proud to be a Fellow of the American Association of Dental Office Management (FAADOM), a prestigious accomplishment obtained after meeting rigorous requirements. She is the founder and president of the San Diego Chapter of AADOM, a non-profit organization that brings local dental managers and practice administration together, for continuing education and networking events.

Tammy has been described as energetic, knowledgeable, dynamic with a true caring heart. She is striving to make a positive difference in dentistry by building relationships, coaching, speaking, and mentoring the next generation of dental professional.
